Series 1328

## STATE OFFICE OF EDUCATION [323]

## SCHOOL BUILDING PLANS AND SPECIFICATIONS, 1911-1983.

182 microfilm reels

**DESCRIPTION:** This series consists of two specific types of documents related to school buildings in Utah for initial construction, and additions and modifications to and remodelings of existing buildings. The first type of documents, plans, may include schematics, bid, working, and as-built drawings. The second type, specifications, may also be known as project manuals and are usually bound volumes. These volumes contain bid process instructions and specifications as to materials and methods that must be used in the construction process. The State Office of Education regularly received copies of these documents as part of the oversight process for school construction: a signature from a representative of the Office often appears with signatures from other state and local agency representatives involved in the school planning and building activities, such as the State Fire Marshal.

**ARRANGEMENT:** The filmed records are arranged chronologically by filming batch. Most are arranged thereunder alphabetically by school district name. Most of the alphabetical district arrangements have the city school districts (such as Provo, Logan, Park City, and Ogden) at the end of the listings following the county and non-city districts (such as North Summit and South Sanpete). In some filming batches the city districts are included in the general alphabetical listing by district name or may be included with the records for the larger district surrounding the city district (i.e. the Logan district would immediately follow the Cache County District records).

Exceptions to the alphabetical arrangement include the 1911-1948 filming batch which is first divided by document type (plans or specifications) and thereunder alphabetical by school district name. Other exceptions to the alphabetical arrangement by school district name are

the 1966-1969, 1978-1979, 1978-1980, and 1979-1980 filmings which are arranged numerically by plan number. Plan numbers were apparently assigned in chronological order by date of the project proposal. See the container list or school name index for specific information on where individual school documents can be found.

**RESEARCH NOTE:** Plans and specifications may not both be available for each project. The school name index will indicate which are available.

RELATED RECORDS: Series 23773, SCHOOL BUILDING PLANS AND SPECIFICATIONS, contains similar and additional materials related solely to the Sevier County School District. Series 23774, ELEMENTARY SCHOOL BUILDING PLANS AND SPECIFICATIONS, contains similar materials and additional records related solely to Granite School District elementary schools. Other documentation related to school buildings for limited periods of time may be found in series 1379, SCHOOL BUILDING CONSTRUCTION PROJECT FILES; series 1385, SCHOOL BUILDING FUNDS ACCOUNT BOOK; series 1341, SCHOOL BUILDINGS CORRESPONDENCE; series 1843, SCHOOL BUILDINGS PLANS REGISTER; series 84439, SCHOOL BUILDINGS IN UTAH REPORTS AND SUPPLEMENTS; and series 1895, SCHOOL BUILDINGS COST SURVEY DATA.

**PROCESSING NOTE:** This series was processed by A. B. Schmuland in December 2001. The container list was updated in July 2002 following microfilming of some records.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

**GAPS:** This series contains no records related to the Salt Lake City School District.
